This extralarge football table, for 8 players, will offer increased fun and even more interesting actions, thanks to a longer playing field. Its cabinet reproduces the G-2000 elegant shape with sleek inclined legs.

Cabinet constructed from plywood - 25 mm thick – (1" thick) - coated with plastic laminate. Colours: white.

Legs in MDF coated with plastic laminate 40 mm thick (fig.1).

16 mm diameter high stress resistance steel bars coated with anti-rust chromium-plating. On choice, going-through bars or telescopic safety bars. (fig. 2)

The steel roller bearings inside the bearings fixing bars to the cabinet greatly improve the game speed, while reducing the stress for the players' wrists.

Moplen players moulded onto the bars; colour: blue and red with colour coordinated score counters.

The table is available with fully rotating (360 degrees) goalkeeper only.

Playing field of green plastic laminate with silk-screen printed white lines to look like a football ground. (fig.3).

Quick and easy ball recovery through an exit behind each goal. (fig.4).

10 white Standard balls supplied with the table.
